Exchanging Knowledge | Extending Quality Life

Robots supporting personal independence and rehabilitation

Gail Mountain
Professor of Health Services
Research (assisted living research)
Co-Director Lab4living

 The University of Sheffield.

kt equal
Exchanging Knowledge | Extending Quality Life

- Knowledge Transfer/ exchange for Extending Quality of Life of Older and Disabled People (funded by the EPSRC) 2009 -2012
- Some roles and functions;
 - Provide/ facilitate workshops and other forums for dissemination, discussion and debate
 - Provide capacity building opportunities for researchers
 - Translate research findings into products for industry and for practice

Why this workshop is important for KT-EQUAL

- Dispelling popular myths about robotic applications
- Stimulating debate
- Creating partnerships

This is the last in a series of workshops on assistive technologies.....

March 2009, Reading. Enabling people with dementia and their carers through use of new technologies.

April 2009, London. Implementing inclusive design in education

September 2009, London. Making the most of the potential of assistive technology.

October 2009, Sheffield Assistive Technologies: what is their place in the mainstream market.

November 2009, Hertfordshire. Robots supporting personal independence and rehabilitation.

What next

- A monograph will be produced out of the day's events
- All presentations and monograph will be placed on the website
- If you are not a member, register now
- Give us your ideas for further events
visit www.sparc.ac.uk; new KT-EQUAL website in the new year; visitors will be redirected
